SEPTEMBER TO NOVEMBER 2026 ISSUANCE CALENDAR

In a bid to provide timely information to better inform investor decisions on government securities investments and to improve market transparency in the issuance of government securities, the September 2026 issuance calendar is attached for publication, while the October and November 2026 Calendars are subject to revisions depending on the macro environment.

The Calendars are developed based on domestic security maturities and the government's net domestic financing needs for the month, with the debt management objective of lengthening debt maturity profiles.

Considering the above, the tables below show the breakdown of domestic borrowing for September, October, and November 2026 (in millions of Dalasi).
